FOREWORD

The North Carolina Education Directory is prepared and distributed annually by the Department of Public Instruction's Division of Communication Services as a service to educators and others interested in public education. It is intended to be a source for better communication for school system personnel. The directory provides information on the State Board of Education, professional staff in the state education department, a number of educational associations, individual school systems and all public elementary and secondary schools in the state.

We appreciate the valuable assistance from school superintendents and others who supplied the information for this directory and hope it will be helpful to you.

A handwritten signature in black ink, reading "Bob Etheridge". The signature is fluid and cursive, with the first name "Bob" and last name "Etheridge" clearly distinguishable.

TIPS ON USING THE NC EDUCATION DIRECTORY

If the school system is a city unit but you do not know which county it is in see the ALPHABETICAL LIST OF CITY SCHOOL UNITS, page 69.

A new feature of this year's directory is the identification of the education region in the individual school system listing. The education region can be found directly under the school system's name in the ALPHABETICAL LIST OF SCHOOL UNITS BY COUNTIES.

If you need the address of a private or home school, see the listing for the Office of Non-Public Schools in the Special Schools' section, page 214.

If you know an association by its acronym instead of its official name, see the listing of acronyms, page 37.

Local board of education attorneys are listed under the names of the board members in the ALPHABETICAL LIST OF SCHOOL UNITS BY COUNTIES. Their addresses are included, but call the central office of the school system for phone numbers.

All school systems and schools have code numbers. A list of code numbers for school systems is on page 198.

If you know the name of a school but do not know its location, see page 200. The ALPHABETICAL INDEX OF PUBLIC SCHOOLS includes the code number and telephone number of all public schools in this state. The first three digits of the code number indicate the school system. For example, 110-304 A C REYNOLDS 704-298-2500 — To find the school system for the 110 code, refer to the CODE NUMBERS FOR SCHOOL UNITS on page 198. This is the code for Buncombe County. To find the principal's name and other information about this school, turn to the listing for Buncombe County and look for this code in the list of schools.

A handy reference guide to school system phone numbers is located on the inside back cover. School system code numbers are also included.
